

# Do you have a family history of prostate cancer? Are you interested in taking part in a prostate cancer screening study?

Researchers at The Institute of Cancer Research, London are seeking men aged 40 to 69 years of age to take part in a study to investigate the role genetic testing has in the development of screening programmes for prostate cancer detection.

## To take part, you must:

- Not have had prostate cancer yourself
- Have at least one relative diagnosed with prostate cancer aged 69 or younger at age of diagnosis
- Be able to travel to The Royal Marsden in London or Sutton

For more information, please call us on **020 8722 4483** or email [prostate.research@rmh.nhs.uk](mailto:prostate.research@rmh.nhs.uk)

Travel expenses will be reimbursed.
